

# RSS: Really Simple Syndication

Yes, it really is simple.

## What is it?

RSS is a way of delivering regularly changing web content to readers.

RSS allows a reader to “subscribe” to a website so that whenever that website is updated the reader is notified.

## Why use it?

1. It allows you to **easily stay informed** by retrieving the latest content from the sites you are interested in.
2. You **save time** by not needing to visit each site individually.
3. You **ensure your privacy**, by not needing to join each site's email newsletter.

## How do I use it?

There are two main options for receiving RSS feeds:

1. Use an RSS mailing program to have feeds emailed directly to your current email address.
2. Use a feed reader (aggregator) to read your feeds online.

# Get feeds delivered to your email:

1. Go to [www.feedmyinbox.com](http://www.feedmyinbox.com)
2. Type in the page your wish to subscribe to. i.e. <http://tshs.tahomasd.us> and your email.

5. Check your Inbox. — You should have received an email to confirm, cancel, and manage your subscription(s).

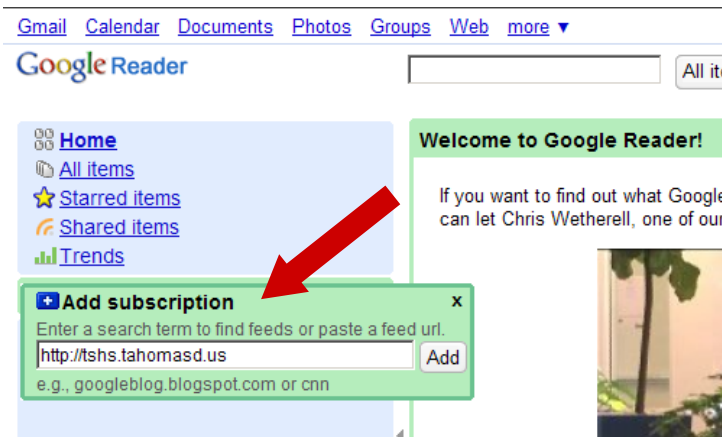

You should now start receiving emails whenever this site is updated! Let the updates come to you!!

# Read feeds online:

1. Go to [www.google.com/reader](http://www.google.com/reader)
2. You need a google account.  
If you don't have one, sign up for one.  
Otherwise, login.

3. Take the tour OR start adding subscriptions.
4. Click Add subscription

5. Now anytime you visit [www.google.com/reader](http://www.google.com/reader) and login, you will be able to see any content that has been updated on sites you have subscribed to.
